

VETERANS AND VACCINES

On November 11 we honor our veterans, those who served in our armed forces, which often over the years has been a thankless job but necessary to the security of our country. Those who serve have various motivations, but many, many of them share the primary one: commitment to this nation, what it has stood for since its founding, and the safety of their loved ones and all of the rest of us, too.

Many veterans have fought in wars overseas, returning home maimed or injured in horrendous ways, having to learn to live their lives with serious disabilities.

How can we be thankful enough to them for what they have given to us all? We cannot, so I guess a simple, heartfelt "THANK YOU!" is the best we can do.

Or is it? Maybe we can do more. Maybe we can show our gratitude for their sacrifice by what we do with our lives, attitudes, and awareness.

Specifically, maybe we can resolve to pay attention to what's going on in this state, the nation, and the world, using sources other than the mainstream media, aka "Fake News", who are the Propaganda Ministers for the leftist, socialist/communist agenda being foisted on us these days. And then, when we've found alternative sources that tell the truth about what's going on, we can take action in the form of voting regularly, attending meetings like LVEDA* or the Board of Supervisors meetings in San Bernardino, or others; supporting peaceful (for now) demonstrations – any of those things that express our resistance and displeasure at the government tyranny we are now experiencing and against which our veterans fought.

We have written repeatedly in this space about this subject, to the point that we wonder if we should back off because too much "negativity" could discourage people from reading this. I ask God, "What would You have in this space this week? Can we do something happier or funnier?" Lots of times it has been ok to do the lighter things, but as the satanic pressure behind the tyrannical regulations and mandates intensifies, God has directed that the subject here needs to be in response to that.

Jeremiah the Prophet found himself in the unenviable position of being the bearer of bad news to the Israelites of his time, on behalf of God, and when he tried to just shut up because no one paid attention,

God wouldn't let him.

For whenever I speak, I cry out, I shout, "Violence and destruction!"

For the word of the LORD has become for me a reproach and derision all day long.

If I say, "I will not mention him, or speak any more in his name," there is in my heart as it were a burning fire

shut up in my bones, and I am weary with holding it in, and I cannot. (Jeremiah 20, 8-9)

So-o-o, guess what? If you don't want to hear it, don't read on. I wish it were happier!

Just this morning, Friday November 5, American Thinker (my favorite website) had so many great articles that my head spun. (I enjoyed printing and tossing them to Sir William since he's made me his slave, filtering out the best articles for him to read.) I'll try to give you the best out of them.

Why Do They Want to Vaccinate Children? by Vasko Kohlmayer.

Not only there is no real benefit of [vaccinating kids], but there are also considerable risks associated with this procedure. It is well known that the Covid vaccines have not been properly subjected to trials and tested. It normally takes between 6 and 10 years to develop and test a vaccine that can be declared safe and effective for mass implementation. The Covid shots have been around for less than 18 months, which makes it impossible to know what their long-term side effects may be. . . . Money is the main reason. The effort to inject your children likely is primarily driven by a desire to further increase the already immense profits of the pharmaceutical giants that produce these vaccines.

Rise of the Vaccine Bullies, by Peggy Ryan.

Governors order states shut down for weeks, months. On re-opening, they parcel out freedom, just certain businesses and partial openings. This reign of terror closed 200,000 businesses for good — not just storefronts, but real people, real incomes stolen, real lives destroyed. However, those tyrannical crackdowns were just a prelude to the big push, the real exercise of control over the people, the vaccine. They started out asking nicely, but then orders started to fly. Federal workers, military, have to take the job. Then corporatism (economic fascism) rears its ugly head when companies team up with government to issue ultimatums. You want to eat, you want your kids to have a home

and clothes, you want health insurance for your family, then you will take the job. No

excuses, no exceptions.

The people: But wait, I have natural immunity that's at least 13 times stronger than the vax.

Vax Bullies: Don't care, shut up and take the job.

The people: But this is unconstitutional, against the 1st Amendment's religious protection.

Vax Bullies: Don't care, shut up and take the job.

The people: But if I have a 99% chance of surviving the virus, why would I need the shot?

Vax Bullies: Don't care, shut up and take the job. . . .

Many are already standing up to the bullies with protests and sit-outs. Many are walking away from their jobs, giving up their income and health benefits to say no to the job. Yes, there may be a high price to pay for freedom, but at least for now, we can still opt out of the vaccine mandate. But how long will these despots allow us to resist before they use force?

How Much Would You Like to Be a Serf? By Jeffrey Folks

The intelligentsia is determined to eliminate the middle class, whose values and political interests are so much opposed to their own insistence on centralized control. To this end, today's progressives are doing all they can to block the path to the middle class. . . . It is not in the left's interest to have a broad, inquisitive, educated, assertive middle class demanding the right to govern themselves. . . .

The conflict between the reactionary intelligentsia headed by Biden, Pelosi, Obama, and the Clintons and a hardworking middle class supported by Donald Trump and, before him, Ronald Reagan, is the most important political clash of our time. Reactionaries like Biden want to limit economic opportunity and curtail free speech and meaningful elections. Their goal is to institute permanent autocratic control by destroying democratic capitalism, and the intelligentsia is facilitating this forced march to serfdom. It can be stopped only by a tidal wave of resistance at the polls.

Second-Class Citizens in Biden's America, by K.S. Guardiola.

A definition of a second-class citizen is a person belonging to a social, economic, or political group whose rights and opportunities are inferior to those of the dominant group in society. We are witnessing the societal standing of a large segment of

the American people being increasingly diminished by the policies of the Biden administration and numerous current events. Consequently, the collective standing of today's so-called deplorables is being increasingly relegated by our political system to expendables.

Big Government aligned with left-leaning Big Business, the permanent Administrative State, the mainstream media, Big Tech and social media, the entertainment world, and our educational and academic establishments is in the process of radically transforming our way of government and ultimately the nature of our society. The parties mentioned above collectively are often referred to as the elites, the Establishment, or the Deep State. On the other hand, the deplorables constitute a large segment of all middle- and working-class Americans The outbreak of the COVID-19 pandemic . . . quickly spread around the world and was the pretext and the spark that ignited operations to overthrow Western-style democracies throughout the world. . . . A continuing demand for a 100% vaccinated population, including children, is relentlessly pursued, even with a great deal of evidence pointing to the potential grave consequences to the health of many individuals. . . .

Don't let this get you down in the dumps. Turn to the Lord your God, Who created the universe and Who knows you by name! Solomon the king wrote this in Proverbs 2, by the Holy Spirit:

Yes, if you call out for insight and raise your voice for understanding, if you seek it like silver and search for it as for hidden treasures, then you will understand the fear of the LORD and find the knowledge of God. For the LORD gives wisdom; from his mouth come knowledge and understanding; he stores up sound wisdom for the upright; he is a shield to those who walk in integrity, guarding the paths of justice and watching over the way of his saints. . . . delivering you from the way of evil, from men of perverted speech, who forsake the paths of uprightness to walk in the ways of darkness, who rejoice in doing evil and delight in the perverseness of evil, men whose paths are crooked, and who are devious in their ways.

BETTER THAN THE RECIPE

During KP duty, my sergeant ordered me to prepare 100 gallons of soup for that night's dinner. When I told him I had no clue how to make soup, he handed me a cookbook and instructed, "Follow the directions carefully." Not long after, I had a large kettle of soup simmering.

The sergeant came in, grabbed a spoon, and took a taste. "This is really good," he said. "Are you sure you followed the recipe?"

ONLY BACKSPACE

In the '50s, I was a clerk typist at our base headquarters in Verdun, France. We were a tough group. How tough? Our motto was "We never retreat, we just backspace."

THE DEADLIEST JOB IN WWII

My high school assignment was to ask a veteran about World War II. Since my father had served in the Philippines during the war, I chose him. After a few basic questions, I very gingerly asked, "Did you ever kill anyone?"

Dad got quiet. Then, in a soft voice, he said, "Probably. I was the cook."

LANDMARKS AND SPACEMARKS

While on maneuvers in the Mojave Desert, our convoy got lost, forcing our lieutenant to radio for help. "Are you near any landmarks that might help us locate you?" the base operator asked him. "Yes," said the lieutenant. "We are directly under the moon."

FORGET EVERYTHING YOU KNOW ABOUT GUNS

After leaving the Army, I applied for a hunting permit but was told I would first need to take a hunter's safety course. "I'm a veteran, trained in handling firearms," I said. "Why wouldn't I get a waiver?" The clerk replied, "Because we teach you not to shoot people."

Before 2020, we were pretty wild! Remember how we all used to eat cake after someone had blown on it? Crazy times!

This will be the first year we're not going to Hawaii because of Covid-19.

Normally we don't go because we can't afford it.
