## On the Road to Emmaus

(from Luke 24:13-49 NLT, one of my favorite stories – LG)

Now that same day two of them were going to a village called Emmaus, about seven miles from Jerusalem. They were talking with each other about everything that had happened. As they talked and discussed these things with each other, Jesus himself came up and walked along with them; but they were kept from recognizing him.

He asked them, "What are you discussing together as you walk along?"

They stood still, their faces downcast. One of them, named Cleopas, asked him, "Are you the only one visiting Jerusalem who does not know the things that have happened there in these days?"

"What things?" he asked.

"About Jesus of Nazareth,"

they replied. "He was a prophet, powerful in word and deed before God and all the people. The chief priests and our rulers handed him over to be sentenced to death, and they crucified him; but we had hoped that he was the one who was going to redeem Israel. And what is more, it is the third day since all this took place. In addition, some of our women amazed us. They went to the tomb early this morning but didn't find his body. They came and told us that they had seen a vision of angels, who said he was alive. Then some of our companions went to the tomb and found it just as the women had said, but they did not see Jesus."

He said to them, "How foolish you are, and how slow to believe all that the prophets have spoken! Did not the Messiah have to suffer these things and then enter his glory?" And beginning with Moses and all the Prophets, he explained to them what was said in all the Scriptures concerning himself.

As they approached the village to which they were going, Jesus continued on as if he were going farther. But they urged him strongly, "Stay with us, for it is nearly evening; the day is almost over." So he went in to stay with them.

When he was at the table with them, he took bread, gave thanks, broke it and began to give it to them. Then their eyes were opened and they recognized him, and he disappeared from their sight. They asked each other, "Were not our hearts burning within us while he talked with us on the road and opened the Scriptures to us?"

They got up and returned at once to Jerusalem. There they found the Eleven and those with them, assembled together and saying, "It is true! The Lord has risen and has appeared to Simon." Then the two told what had happened on the way, and

how Jesus was recognized by them when he broke the bread.

While they were still talking about this, Jesus himself stood among them and said to them, "Peace be with you."

They were startled and frightened, thinking they saw a ghost. He said to them, "Why are you troubled, and why

and bones, as you see I have."

When he had said this, he showed them his hands and feet. And while they still did not believe it because of joy and amazement, he asked them, "Do you have anything here to eat?" They gave him a piece of broiled fish, and he took it and ate it in their presence.

He said to them, "This is what I told you while I was still with you: Everything must be fulfilled that is written about me in the Law of Moses, the Prophets and the Psalms."

Then he opened their minds so they could understand the Scriptures. He told them, "This is what is written: The Messiah will suffer and rise from the dead on the third day, and repentance for the forgiveness of sins will be preached in his name to all nations, beginning at Jerusalem. You are witnesses of these things. I am going to send you what my Father

has promised; but stay in the city until you have been clothed with power from on high."

do doubts rise in your minds? Look at my hands and my feet. It is I myself! Touch me and see; a ghost does not have flesh

## On The Lighter Side . . . from the Web

Epic testimony of why not to buy

Electric Vehicles

From an anonymous Wisconsin State trooper:

I'm not a fan of all electric vehicles. Too many variables affecting battery consumption. Definitely not suited for cold climates.

The following experience just cements my distaste for EV's, especially Teslas.

I get sent to a motorist assist the other day, at the start of our snowstorm. Tesla on the side of the interstate, dead battery. So, I arrive on scene and the occupants have the right-front door open. They tell me that they can't open any other doors, because the battery is dead. Sure enough, can't open the doors from inside or outside.

The driver also can't get her license out of the glove box where she put it during their trip because the glovebox opens electronically... and the battery is dead. You actually have to use the computer in the center of the dash to open the glovebox.

They said they had 10% battery left, should've been plenty to get from that location to the charging station nearby. Then all of a sudden, the whole car shut off and they coasted to the shoulder.

So now I have to find them a tow. No one wants to tow Electric Vehicles. Finally found one company to do it. 8-mile trip to the charging station in Tomah. \$1,000! Normal vehicle on the flatbed would've been \$150.

So now we're at the Tesla superchargers. Guess what. Can't open the charging port on the car because the ports open, you guessed it, electronically!!! And we also can't open the doors now (had to close the one open door when it was loaded onto the wrecker). The owner's manual is in the on-board computer, but the battery is dead.

I got the occupants to a store where they'd be warm while calling the rental company to figure out how to charge this POS, so I'm not sure of the outcome. I had to leave for a crash report.

Electric Vehicles may be the way, someday, but certainly not today!! I'll stick with my dinosaur burner.

I didn't realize it was bank run season already! I still have my train derailment decorations up...
