

# Faces

As of this writing, on January 29, 2025, these are the 33 hostages held by the Hamas monsters in Gaza for 15 months, who are being released in threes and fours in the first stage of the ceasefire agreement between Israel and Hamas. It is unknown which are still alive. They will be exchanged for hundreds of murdering terrorists in a deal skewed against Israel. No justice. It's only Jews, you see. As Amir Tsarfati (Bible teacher) says, "No Jews, no news."

When there is actual genocide being committed, as in Sudan or Ukraine, where innocent people are being beheaded or bombed or burned alive just because of who they are, nothing is said about it. But when Israel gets attacked by terrorist hordes who kill over 1000 people, burn houses, cars, and people (alive), behead babies, and kidnap a few hundred hostages, it's all of a sudden "Genocide, genocide, genocide" screamed against Israel.

Below are pictures of just a few of the "hostages" who were arrested and jailed

often without a trial for demonstrating their displeasure about the 2020 elections near the Capitol building, in the infamous incident known as J6 (January 6, 2021). "Violence" that occurred was often egged on by FBI and other government-related plants. Sentences were far harsher than Antifa and Black Lives Matter who burned down cities and destroyed people's lives.

There is a common thread between these two situations -- pure evil. American Thinker labels its article, "Erasing Humanity, One Face at a Time" (by Charlton Allen, 1/29/2025), which is one of the earmarks of God's enemy, Satan. That's the kind of evil our nation has been exposed to more and more directly during 12 of the last 16 years, the Obama and Biden years. Israel has had to deal directly with that Face of Evil for the entirety of its existence.

A third group of victims of government tyranny are the 23 people who were jailed, fined or otherwise punished for peacefully

and quietly demonstrating in favor of babies' lives, in front of abortion clinics. They too were given harsh and inappropriately lengthy sentences for minor or non-existent infractions, far more severe than those violent "activists" mentioned above.

Make no mistake, these are hot and active battlefields being used by Satan to win over and consume as many souls as he can before the end comes, when God will end this mess of a world and set up a new heaven and a new earth for those who have chosen to be His Followers. Satan hates God and hates God's supreme creation, mankind, formed in God's image. He'll do anything to destroy us, and especially those of us he knows are God's people - erase our individual identities, kill our babies, kill us bodily and in our souls, sow mayhem and destruction everywhere, and more.

He won big-time when the American government jailed basically good people protesting injustice and baby murder. He won a huge victory against Israel with the October 7 (2023) catastrophe. He has poisoned much of American culture, by co-opting major segments of our society, making them mouth pieces of his agenda who then

indoctrinate masses of people to be against God and His Spirit; to reject the basis of our nation's founding on the Bible and in covenant with God to follow His guidance as a nation; and now, in the late stages of his destruction, to convince young people such ideas as sex and gender have no boundaries, truth is a matter of each person's individual choice, and everything is relative and there are no absolutes.

These faces above are some of the kidnapped Israelis. Satan hates that you can see them as real people with faces. Have you ever wondered why the Antifa or Black Lives Matter terrorists always cover their faces? Or how the Hamas terrorists also cover their faces and heads so completely that the eyes burning with hatred and murder are all you can see? You are seeing the results of Satan's victory over these people. It's really tragic

## LVEDA Meeting

(Lucerne Valley Economic Development Association)

Monday, **FEBRUARY 24th**

5:00 pm at the Moose Lodge

on Foothill Road, just west of Tradepost Road.

**We are inviting a Representative from ANIMAL CONTROL to attend this month's meeting!**

LVEDA provides an important community forum recognized by County, State, and Local Representatives. Supports real economic development consistent with our rural goals. Opposes projects that harm our land-use integrity and quality of life.

**Is something bugging you? COME TO THE NEXT MEETING TO EXPRESS YOUR OPINION!**

to see so many souls who are doomed unless they individually turn around and surrender to God!

Our nation has been given a reprieve in the last few weeks. The puppets of the Evil One have been sidelined and replaced by leaders with a completely different motivation and spirit. President Trump acknowledges God now, giving Him credit for saving his life, with the mission to turn this country around, correct and repair the damage of all the evil we've been subjected to, and set in place a better path aligned with God's calling to this nation to be a beacon of light in the dark world.

As Christian Rabbi Jonathan Cahn says,

you can change the government for the better, but the government cannot change the hearts of the people. If you don't change the hearts of the people, then the people will change the government back to the evil path it was on.

It's up to us to do everything we can to make the most of this reprieve God has given us. We must PRAY that God's Holy Spirit is allowed to work in people's lives, especially our government leaders. We'll never save the world, but our prayers and our lives and our diligence can sure help turn others around us to God, to save more souls from the pit of Hell.

Let's do it!

*Linda Gimmel*
